SUBJECT: PRE-LICENSING EVALUATION OF EXTREME WIND, TORNADO, AND
TORNADO MISSILE ANALYSIS PRECLOSURE (PRE) KEY TECHNICAL ISSUE
(KTI) AGREEMENT 3.02

Dear Mr. Ziegler:

The U.S. Nuclear Regulatory Commission (NRC) has completed its evaluation of the U.S. Department of Energy's (DOE's) July 24, 2003, response to Key Technical Issues Agreement Preclosure (PRE) 3.02. The July 24, 2003, letter transmitted information classified as "Official Use Only" (OUO) under the criteria of Exemption 2 of the Freedom of Information Act. As a result, the NRC's evaluation has also been classified as OUO and is "Non-publicly" available. Consequently, NRC prepared an additional evaluation report that presents a summary of its evaluation and is not classified as OUO and is publicly available.

NRC found that the information provided in DOE's response to PRE 3.02 satisfied the intent of the original agreement and considers the agreement complete. However, to ensure DOE provides a complete license application, NRC provided additional comments that should be addressed within the application. This information is discussed in the attached evaluation.

If you have any questions regarding this matter, please contact Timothy Kobetz at 301-415-5170 or by e-mail to TJK1@nrc.gov.

Sincerely,

/RA/

Janet R. Schlueter, Chief
