SUMMARY

I initiated the conversation by inquiring about a possible Project Decision

Schedule (PDS) update. Charlie said that no update is scheduled, but that a letter will be sent to the affected agencies stating that the milestones for the 2nd Repository were no longer valid. As to an update to the Mission Plan, he said that it will be reissued in some limited way, possibly as a letter citing potential revisions, which will be sent to States, Tribes, and Federal Agencies, not to the public per se. He believes this letter of Mission Plan revisions will be out in the next few weeks (not a Federal Register Notice). I also asked him about the PDS dates concerning Part 60 and the EPA standards (PDS said 3/86, NRC revisions issued 6/86). He believed that no letter of notification is needed.
