TRAINING: No special training requirements have been identified for any documents issued with this change notice.

REMARKS: IMC 0350 (Oversight of Operating Reactor Facilities in a Shutdown Condition With Performance Problems) has been revised to provide a comprehensive correlation between aspects of the Reactor Oversight Process and the IMC 0350 process, to provide an enhanced structure to the inspection approach for IMC 0350 plants, and to incorporate other lessons learned and clarifications. Issuance of this revised manual chapter completes Part 2, "Evaluation of IMC 0350 Guidance," of the Davis-Besse Lessons Learned Task Force Recommendations Action Plan Regarding Inspection, Assessment, and Project Management Guidance.

DISTRIBUTION: Standard
