Crystal River Unit 3 Nuclear Generating Plant  
Docket Number 50-302/License Number DPR-72

**Addendum to Application for Technical Specification Change Regarding  
Mode Change Limitations Using the Consolidated Line Item Improvement  
Process**

Ladies and Gentlemen:

In the letter dated December 19, 2003, and identified by serial number PERAS 03-127, Progress Energy Carolinas, Inc. and Progress Energy Florida, Inc. made application for license amendments in accordance with the provisions of 10 CFR 50.90, "Application for Amendment of License or Construction Permit." Progress Energy Carolinas, Inc. and Progress Energy Florida, Inc. submitted the subject request for amendments to the Technical Specifications (TS) for the Brunswick Steam Electric Plant (BSEP), Unit Nos. 1 and 2, the H. B. Robinson Steam Electric Plant (HBRSEP), Unit 2, and the Crystal River Nuclear Generating Plant (CR3), Unit 3. The request should have been made using the licensee names of Carolina Power & Light Company doing business as Progress Energy Carolinas, Inc. (PEC), and Florida Power Corporation doing business as Progress Energy Florida, Inc. (PEF). Please accept this amendment to letter PERAS 03-127 and use the licensee names as corrected here. Any use of the acronyms PEC and PEF in the subject submittal and this letter should be read as the licensee as described in this paragraph "doing business as" PEC or PEF, respectively.

The proposed license amendments would change the TS requirements that limit mode changes per the Limiting Conditions for Operation as described in TS Section 3.0.4 and Surveillance Requirements (SR) 3.0.4. The change is consistent with NRC approved Industry Technical Specification Task Force (TSTF) Standard TS Change Traveler, TSTF-359, "Increase Flexibility in MODE Restraints." The availability of this TS improvement was announced in the *Federal Register*, Volume 68, Number 65, "Notice of Availability of Model Application

A001

Concerning Technical Specification Improvement To Modify Requirements Regarding Mode Change Limitations Using the Consolidated Line Item Improvement Process," Pages 16579-16593, on April 4, 2003.

In accordance with 10 CFR 50.91, a copy of this amended application cover letter is being provided to the States of North Carolina, South Carolina, and Florida.

Please refer any questions regarding this submittal to Mr. Tony Groblewski, Supervisor – Regulatory Affairs, at (919) 546-4579.

Sincerely,

C. S. Hinnant

RTG/rtg

C. S. Hinnant, having been first duly sworn, did depose and say that the information contained herein is true and correct to the best of his information, knowledge and belief; and the sources of his information are officers, employees, and agents of Progress Energy Carolinas, Inc. (PEC) and Progress Energy Florida, Inc. (PEF).
