MEMORANDUM FOR: Malcolm R. Knapp, Chief  
Geotechnical Branch  
Division of Waste Management

FROM: Lake H. Barrett, Chief  
Engineering Branch  
Division of Waste Management

SUBJECT: THERMODYNAMIC RELATIONS IN THE MAGNETITE-WATER SYSTEM

The enclosure details some of our concerns about DOE's treatment of the waste package environment as set forth in the BWIP SCR of November 1982. We would appreciate a formal review of this document by your branch. Informal comments from RES and WMG have already been incorporated in the text.

Questions on the contents of the enclosure may be referred to Chuck Peterson, on extension 74546.
