Dear Mr. Kuo

I am writing in support of the renewal of the license for Plant Farley. Farley is a vital part of the community in Houston County. The impact that the plant has on the economy is tremendous. It currently provides over 8 million annually in tax revenue and provides quality jobs for over 900 employees. Farley's contribution does not stop with its financial impact, the involvement of the plant in the quality of life in our community makes Houston County a better place to live. The employees at Farley are involved with the community and volunteer both their time and resources. I personally serve on the United Way Board and am a member of the Dothan Rotary Club with two different employees from the plant.

Plant Farley is greatly appreciated and means so much to the local economy. Farley is not just an asset to our community it is part of the community that I would like to see continue.

Sincerely,

A handwritten signature in cursive script that reads "Starla Moss Matthews".

Starla Moss Matthews
Revenue Commissioner
Houston County
