<b>Subject:</b> January 6 letter with 2.790 request		
<p>Charlene McIntyre returned my call regarding two issues related to the January 6 request to withdraw a previously submitted letter because of 2.790 considerations, and the replacement information.</p> <p>I explained that the first paragraph of the letter is not sufficient to evaluate if the information meets the 2.790 criteria, and that Lockheed needed to submit all the information required by 2.790(b), which includes an affidavit with all the information required by (b)(1)(ii) and (b)(4), and that the affidavit is a separate document from the request.</p> <p>I also discussed the replacement information. Although the January letter states that they provided a "revised version of the November 25" letter, I told her that we cannot accept the revised letter, because she is requesting to withdraw from public the November 25 letter; in essence, she has provided 2 letters, both dated November 25, one of which she wants withheld from public and a revised version. I asked her to replace the information in the November 25 letter with another letter with a current date.</p> <p>She said that she expects to be working on this today.</p>
