YUCCA MOUNTAIN SITE CHARACTERIZATION PROJECT (YMP) TECHNICAL DATA CATALOG (SCPB: N/A)

Due to significant fiscal year 1996 funding constraints, the Yucca Mountain Site Characterization Office (YMSCO) has decided to discontinue the quarterly hard copy distribution of the YMP Technical Data Catalog. However, on-line access to the Automated Technical Data Tracking (ATDT) System, which was used to publish the Catalog, is now available upon request. Significant data query and report generation enhancements have been added to the current version of the ATDT System, providing user access to all of the information published in the hard copy Catalog. The U.S. Nuclear Regulatory Commission and all YMP Affected Organizations are provided on-line access. YMP Affected Organization personnel wanting on-line access should contact their respective Technical Data Coordinators or Robert F. Lewis. Affected Units of Local Government and other stakeholder organizations who do not currently have on-line access to the ATDT System may do so by submitting a written request to the YMSCO Technical Data Manager, Claudia M. Newbury, at the following address:

U.S. Department of Energy
Yucca Mountain Site Characterization Office
P.O. Box 98608
Las Vegas, Nevada 89193-8608

Please copy written requests to Robert F. Lewis, ATDT System Manager, at Civilian Radioactive Waste Management System Management and Operating Contractor, Las Vegas, Nevada. Questions regarding this matter, should be directed to either Claudia M. Newbury at (702) 794-7942 or Robert F. Lewis at (702) 794-7993.

Stephan J. Brocum
