

U. S. NUCLEAR REGULATORY COMMISSION

Agency Information Collection Activities: Proposed Collection; Comment Request

AGENCY: U. S. Nuclear Regulatory Commission (NRC)

ACTION: Notice of pending NRC action to submit an information collection request to OMB and solicitation of public comment.

SUMMARY: The NRC is preparing a submittal to OMB for review of continued approval of information collections under the provisions of the Paperwork Reduction Act of 1995 (44 U.S.C. Chapter 35).

Information pertaining to the requirement to be submitted:

1. The title of the information collection: 10 CFR Part 21, Report of Defects and Noncompliance
2. Current OMB approval number: 3150-0035
3. How often the collection is required: On occasion

4. Who is required or asked to report: All directors and responsible officers of firms and organizations building, operating, or owning NRC licensed facilities as well as directors and responsible officers of firms and organizations supplying basic components and safety related design, analysis, testing, inspection, and consulting services of NRC licensed facilities or activities.

5. The number of annual respondents: 36 respondents

6. The number of hours needed annually to complete the requirement or request: 7,790 hours (5,112 for reporting and 2,678 for recordkeeping) and total of 142 hours per each response and 74 hours per each recordkeeper.

7. Abstract: 10 CFR Part 21 implements Section 206 of the Energy Reorganization Act of 1974, as amended. It requires directors and responsible officers of firms and organizations building, operating, owning, or supplying basic components to NRC licensed facilities or activities to report defects and noncompliance that could create a substantial safety hazard at NRC licensed facilities or activities. Organizations subject to 10 CFR Part 21 are also required to maintain such records as may be required to assure compliance with this regulation.

The NRC staff reviews 10 CFR Part 21 reports to determine whether the reported defects in basic components and related services and failure to comply at NRC licensed facilities or activities are potentially generic safety problems.

Submit, by (insert date 60 days after publication in the Federal Register), comments that address the following questions:

1. Is the proposed collection of information necessary for the NRC to properly perform its functions? Does the information have practical utility?
2. Is the burden estimate accurate?
3. Is there a way to enhance the quality, utility, and clarity of the information to be collected?
4. How can the burden of the information collection be minimized, including the use of automated collection techniques or other forms of information technology?

A copy of the draft supporting statement may be viewed free of charge at the NRC Public Document Room, One White Flint North, 11555 Rockville Pike, Room O-1 F21, Rockville, MD 20852. OMB clearance requests are available at the NRC worldwide web site:

<http://www.nrc.gov/public-involve/doc-comment/omb/index.html>. The document will be available on the NRC home page site for 60 days after the signature date of this notice.

Comments and questions about the information collection requirements may be directed to the NRC Clearance Officer, Brenda Jo. Shelton (T-5 F52), U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, by telephone at 301-415-7233, or by Internet electronic mail to INFOCOLLECTS@NRC.GOV.

Dated at Rockville, Maryland, this 17th day of May 2004.
