Seabrook Station
FPL Energy Seabrook, LLC
PO Box 300
Seabrook, NH 03874

SUBJECT: CORRECTION OF LICENSE AND TECHNICAL SPECIFICATIONS FOR
SEABROOK STATION, UNIT NO. 1

Dear Mr. Warner:

The purpose of this letter is to provide you with the results of the U.S. Nuclear Regulatory Commission (NRC) staff review of the license and technical specifications (TSs) for the subject plant. The NRC is conducting a comparison of its license authority files to licensees' records to ensure errors in licenses and TSs are identified and corrected for all units. I have completed the comparison of the NRC's license authority file and your records to determine whether corrections were necessary. The enclosure provides the information necessary to update your records for Seabrook Station, Unit No. 1 so that the license and TSs accurately capture the NRC-approved amendments or corrections to these documents. I have discussed the corrections that are necessary with Mike O'Keefe of your staff.

Included in the enclosures are copies of the (1) cover pages of the letters transmitting the license amendments, (2) insert/remove instruction pages for the associated amendment(s), and (3) correct license and/or TS pages. Please follow the instructions of the insert/remove pages when incorporating these corrections. Electronic copies of the enclosures can be found in the Agencywide Documents Access and Management System (ADAMS) at www.nrc.gov/reading-rm/adams.html, under accession numbers ML022840434 (Amendment No. 86), ML011800216 (Amendment No. 14), ML011920330 (Amendment No. 33), ML032580503 (Amendment No. 89), and ML032820397 (Amendment No. 93). Please have a member of your staff inform me when the corrections have been incorporated into your records or if there are questions or comments on the requested action. I can be contacted at 301-415-1484.

Sincerely,

/RA/

Victor Nerses, Senior Project Manager, Section 2
