Subject: CNWRA Program Manager's Periodic Report for Period 6-FY1991

Dear Mr. Funches:

Pursuant to Section F.1.5. of the above referenced contract, enclosed herewith is our "Program Manager's Periodic Report (PMPR)," which reflects the activities of the Center February 16, 1991, through March 15, 1991. Also enclosed is a diskette containing the text of the report in standard ASCII format.

Please note that the estimated budget figures are from the CNWRA FY91-92 Operations Plan for the Division of High Level Waste Management, the Overall Research Project Plan for the Office of Nuclear Regulatory Research: FY91-92, and the Operations Plan for the Licensing Support System Administrator: FY91-92.

We direct your attention again this month to the Financial Status section of each chapter of this PMPR which analyzes cost variances that have arisen during the first six fiscal periods of this year. Based on ongoing and intensive discussions with your staff, and cost control measures on the part of the Center, significant progress has been made in correcting these variances. It is currently our anticipation that Operations and Project Plans will be modified during the next several weeks to provide revised fiscal bases for those Elements and Projects which are experiencing significant cost variances. We continue to work closely with your staff to ensure that necessary changes are made in accordance with current NRC plans and priorities.

Very truly yours,

John E. Latz
President
