Ms. Doris Roberts, Director
Richland Public Library
Swift and Northgate Streets
Richland, WA 99352

Dear Ms. Roberts:

Enclosed is the first group of documents for the Project WM-10 File, Basalt Waste Isolation Project on the Hanford Reservation in the State of Washington. This includes all correspondence dated prior to and including November 12, 1982 (the date we received the Site Characterization Report (SCR) from the Department of Energy). We are in the process of preparing another group of material for this project file and will forward at a later date. Also enclosed is NUREG-0960, which was published in March 1983. This NUREG is related to the WM-10 project file and is discussed in a Federal Register Notice we forwarded for publication this week. I have attached a copy of this FRN for your information.

I have enclosed a chronological listing of all material we have sent you thus far relating to this project. There is no file breakdown at this time, thus all correspondence is in chronological order.

We are in the process of dealing with the long distance calling issue, as well as the issue of having accession numbers listed on the LPDR copies. I will give you a call in a few days to answer any questions you may have regarding this material. I can be reached on 301/427-4087. Thank you.

*NO ATTACH.
LISTED ON ME
ADDRESS
19713; 325-325*

Sincerely,

NS

Nancy Still
