TO: Members of the Licensing Support Network Advisory Review Panel

FROM: Daniel J. Graser */RA/*
LSN Administrator

RE: Revised LSN Guidelines

Two LSN Guidelines have been deleted and are replaced by a new guideline, and two have been revised. The revised and the new documents are being transmitted to you via this letter. A change (addition or deletion) from the prior version of a guideline is identified by a vertical bar in the margin.

Guideline 18, XML Bibliographic Header Description, and Guideline 20, LSN Participant Technical Quickstart, have been replaced by Guideline 22, "Setting up a Licensing Support Network Participant Repository."

Guideline 6, Passwords, was revised to correct a typographical error.

Guideline 12, Auditing System, was revised to reflect that the auditing system is no longer under development, but is in use currently. In addition, the auditing system assists LSN staff in identifying problems with document integrity during loading and subsequently.

As a result of the above modifications to the guidelines, the Table of Contents was revised.

These guidelines in no way affect or supersede or otherwise relieve a participant from compliance with the Commission's Rules of Practice in 10 C.F.R. Part 2. They document the decisions reached by the LSNARP and the implementation of the LSN technical solution. Input from the LSNARP is encouraged and will be documented and added to these guidelines, as appropriate.

Please delete or remove the current Cover and Table of Contents, Guideline 6, Guideline 12, Guideline 18, and Guideline 20 from your LSN Guidelines and replace them with the attached revisions and new guideline. The online guidelines posted on the LSN web site will be revised accordingly.
