FROM: Matthew Gordon
Hydrology Section
Geotechnical Branch
Division of Waste Management

SUBJECT: SUGAR AND RUNCHAL (1982), "PERMEABILITY OF FRACTURED ROCK"

This memorandum confirms that the subject document about which I provided comments to you on October 24, 1984, is indeed the same document referenced in the preliminary draft BWIP EA. This information was supplied to me via telephone by Steve Baker (RHO November 1, 1984). The concern which I voiced regarding the use of the document in the manner indicated in the preliminary draft BWIP EA is, therefore, relevant to our review of the EA.

This memo closes out the follow-up activity to which I committed myself in the aforementioned review of the Sugar and Runchal document.
