Subject: Foreign Ownership

Regarding your question about foreign influence of companies, the NRC has 2 separate programs. I spoke with Bob Wood this afternoon to clarify NRR's role. NRR makes a Foreign Ownership Control and Domination determination on a one time basis at the time of issuance of a Part 50 license. 10 CFR part 50.38 pertains. We (DFS/ADM) make Foreign Ownership Control and Influence (FOCI) determinations of companies as part of issuance of a facility clearance to allow them to have access to classified information. The FOCI program is a more rigorous ongoing program. 10 CFR Part 95 pertains.
