Subject: Fwd: Memo on Sensitive Homeland Security Info

Don, Debbie, Mary Pat:

I have no problem with the attached, but defer to you to make the final call. It meets what Steve Burns described to me as the minimum that must be done to ensure that the Commission knows the staff is aware of the Card memo and is considering its implications.

I would suggest that Mindy add the title of the Card memo to her paragraph, to ensure that the reader knows precisely what we're talking about.

Given Steve's directive of earlier this week that comments we provide on the SHSI issue be brought to his attention, we may wish to touch base with him before giving OEDO the final OK.
