Tom, thanks for providing the information from the CIA regarding the applicability of the DCID since I have been unable to connect with someone from the CIA's general counsel's office. Based on my review on the attachment setting forth impacts of providing licensees non-emergency access to classified information and the proposal for meeting chairman's objective, I have the following comments.

>>> Thomas Martin 01/08/02 10:50AM >>>

Don,

Pat asked for briefing notes to be developed on the 12/20 Chairman memo as a vehicle for her to discuss the issue with Karen as well as for the EDO to brief the Chairman. They wanted this prepared on an asap basis. Attached are the bullets we developed that are consistent with the general approach that you previously commented on. I understand your comments on the previous material, and as an attempt to satisfy your issues, Lynn contacted a knowledgeable rep at CIA. Attached is a copy of a memo Lynn developed based on that conversation. Once again, I would appreciate your review of this material. If we have any significant disagreement at this point, perhaps we should meet with the decision makers and sort this out. Please call me or Lynn with any questions.
