Secretary, US Nuclear Regulatory Commission
ATTN: Rulemaking and Adjudications Office
Washington, DC 20555-0001

Secretary:

I, strongly, urge the rejection of the "Draft Policy Statement on the Treatment of Environmental Justice Matters in NRC Regulatory and Licensing Action". It fails to resolve, or even acknowledge, the long standing problem of racial discrimination in the siting of nuclear plants, factories and waste dumps.

Instead of capitulating to the nuclear industry the NRC should, thoroughly, address the industry's history of siting facilities in minority and disadvantaged communities and on Native American lands, prohibit discrimination in siting, and commit to preventing construction of environmentally unjust facilities.

Sincerely yours,

Dorothy M. Clark
