Dear Mr. Kugler:

QUALITY ASSURANCE AUDIT, APRIL 7-10, 1987, A QUALITY ASSURANCE AUDIT OF THE BASALT WASTE ISOLATION PROJECT (BWIP) AT THE KE/PB OAKLAND, CALIFORNIA, FACILITY

A DOE audit of KE/PB's BWIP activities is planned for April 7-10, 1987, as discussed with Mr. Robert Dann of your staff. The scope of the audit will be divided into two distinct activities. The DOE auditors will address those areas which were not fully covered during Rockwell's February audit, and which are determined as applicable at this time. A Rockwell auditor and technical advisor will be primarily involved in verifying that KE/PB has adequately implemented corrective action for those deficiencies identified during the February 1987 audit conducted at the Oakland facility. Enclosure A gives more detail of the scope of the audit.

An entrance meeting is scheduled for 9:00 a.m., Tuesday, April 7, 1987, with an exit meeting tentatively set for 9:00 a.m., Friday, April 10, 1987. Enclosure B gives more detail. We will coordinate the audit conduct through Mr. Dann. Please make concerned members of your staff available during the audit and provide for appropriate facilities where the auditors can meet during the week and also to conduct the entrance and exit meetings.
