Chief, Rules and Directives Branch:

There MUST BE INCREASE OF SAFETY RULES AND REGULATIONS GOVERNING  
NUCLEAR FACILITIES not relaxation! Our nation must take no  
chances of a 3-mile Island, or worse scenario!

Solar, wind and other environmentally safe energy sources should  
be pursued so thought need of nuclear facilities will be  
eradicated. Current health and well-being of the populus and  
that of future generations must not be endangered!

Sincerely yours,

*Clarence R. Clark*
