Dear Sir:

QUALITY ASSURANCE AUDIT DOE/BWID 8608 RESCHEDULE

QA for R&D/Performance Assessment, which was scheduled to be conducted 4/21-25/86 has been rescheduled to 7/8-11/86. A number of activities performed by the R&D/Performance Assessment organization are generically related to those evaluated during the recent Audit 8605. It is felt that rescheduling Audit 8608 will provide a better measure of progress of improvements presently under way in Rockwell QA.

Very truly yours,
