Dear Mr. Goff:

As requested, we have reviewed the final revisions to the Mississippi State Department of Health's *Regulations for Control of Radiation in Mississippi*, Part 801, Section W, Radiation Safety Requirements for Wireline Service Operations and Subsurface Tracer Studies, received electronically by our office on January 29, 2004. In addition, we reviewed your responses to our letter, dated February 27, 2003, which contained our comments on your proposed version of these rules. These regulations were reviewed, by comparison to the equivalent Nuclear Regulatory Commission (NRC) regulations in 10 CFR Part 34, 36 and 39, and the requirements of the two amendments identified in the enclosed States Regulation Status Data Sheet (SRS). We discussed our review of the regulations with you on February 3, 2004.

As a result of our review, we have no comments. Please note that we have limited our review to regulations required for compatibility and/or health and safety. We have determined that the regulations, as adopted, meet the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200.

The SRS Data Sheet summarizes our knowledge of the status of other Mississippi regulations, as indicated. This letter, including the SRS Data Sheet, is posted on the STP Web Site: <http://www.hsrdr.ornl.gov/nrc/rulemaking.htm>. If you have any questions regarding the compatibility and health categories, or any of the NRC regulations used in the review, please contact me, or John Zabko at 301-415-2308, or e-mail at JGZ@NRC.GOV.

Sincerely,

IRA by K.N. Schneider for
