Dear Mr. Olson:

TELEPHONE CONFERENCE REPORTS
(Contract DE-AC06-77RL01030)

Attached please find copies of our telephone conferences held with Nuclear Regulatory Commission personnel. Per your instructions, we have also transmitted copies to the individuals identified on the distribution list. These reports are identified below by our record number.

10700-84-054
10700-84-062
10110-029-84
10300-84-042

If you have any questions, please contact Mr. J. H. LaRue on 376-8506.

Very truly yours,

EBA

E. B. Ash, Director
Basalt Waste Isolation Project

Commitment Made <input checked="" type="checkbox"/> Yes <input type="checkbox"/> No		File Geology	

Purpose Of Telecon

To initiate and discuss agenda items, meeting type, time and scope of the upcoming
Geosciences workshop/briefing.

Text Of Telecon

A tentative meeting agenda was discussed with the NRC. This agenda was developed from prior communication with the NRC, which included comments raised in the Draft Site Characterization Analysis plus additional concerns. It was agreed that Rockwell/DOE would telex the discussed draft agenda to NRC on February 14, 1984 (morning). The NRC would return it with comments by February 14, 1984, for finalization on February 17, 1984.

It was agreed that the meeting would be a data/plans status briefing limited to one day of formal briefings/discussions followed by one day of data review. Further, this briefing will be held on March 16-17, 1984.

To clarify DOE/NRC Geologic Briefing Agenda Item

Text Of Telecon

Kristine Westbrook returned my call placed in order to clarify a March Geology Briefing agenda item. This agenda item, pertaining to USGS support of the BWIP, was mentioned by NRC during a conference call between DOE/BWIP/NRC personnel held the previous day. Kristine said that the USGS support referred to a discussion of the regional geologic mapping effort. I told her we would be able to incorporate this discussion in the Tectonics portion of the briefing. I also discussed with her the overall intent of the presentations to be held the first day of the briefing; i.e., these presentations were intended to provide the NRC staff with an overview and also to serve as a vehicle by which NRC could identify items they would like to discuss in more detail the following day. Specialized staff members would be available the second day to carry out such discussions. She said she would discuss our conversation with Phil Justus in order to be sure that expectations were clarified.

Use Of Telecon					

Text Of Telecon

- (1) Everett Wick wanted to hold a Waste Package Workshop on April 16, 1984.
- (2) I told him that DOE-RL was negotiating to have a workshop to review the Barrier Materials Test Plan only in early May 1984, possibly in Washington, D. C. There would be only a few Rockwell participants plus DOE representatives attending.
- (3) I also told him that he should contact D. H. Dahlem in DOE-RL to negotiate the exact time and date that the meeting should be held.
