 WSA 470.1 (General)

2 March 1945

FE:10

Subject: Stainless Steel, Rolling Capacity

To: District Engineer, U. S. Engineer Office, Manhattan
 District, Oak Ridge, Tennessee. Attention: Captain
 W. H. Swann

1. Some days ago Mr. Morris E. Leuder, New York District Sales Manager of the Superior Steel Corporation, Chrysler Bldg., New York City, called at this Area.

2. His company now has certain excess capacity for the rolling of stainless steel and it had been suggested to him by the War Production Board that he inform the Manhattan District of that fact. Orders can presumably be processed at the present time in from thirty to forty-five days after receipt.

3. Above is passed on for your information.

For the Area Engineer:

326-68A-588

Box 78

Folder 21

Tennessee Area
 1945 March

FRANK KRITLIN
 Principal Engineer
 Assistant
