Dr. Robert J. Wright  
Repository Projects Branch  
Division of Waste Management  
U. S. Nuclear Regulatory Commission  
Washington, DC 20555

Dear Dr. Wright:

NRC REVIEW OF BWIP GEOLOGIC MAP INVENTORY JUNE 29, 1984

As a follow-up to recent conversations between the NRC and the Basalt Waste Isolation Project Office, support has been arranged to assist Mr. Richard W. Galster in a review of recent geologic mapping relevant to the BWIP. This support will be available on July 30 and 31 at the offices of Rockwell Hanford Operations in Richland, Washington. Rockwell will at this time provide an inventory of mapping relevant to and utilized by BWIP since 1979 and will make available their geologic maps for examination. This inventory will include the authors, sponsoring organizations, dates, and scales of each map. Rockwell personnel will also be available to assist Mr. Galster in and provide other information appropriate to this review.

Please have Mr. Galster arrange his visit with D. H. Dahlem (FTS 444-3022) or B. W. Hurley (FTS 444-7059) of my staff.

Very truly yours,

O. L. Olson, Project Manager  
Basalt Waste Isolation Project Office
