Simulator session Break out may be more appropriate for "experts" in the area - participants here were not SME or simulator for most part - suggest redoing that portion with a targeted audience of SME's

Thanks to NRC staff and SME's for the hard work and cooperation that went into and was apparent during this meeting.

Good job by NRC to ensure consistency between staff to possible concerns by the participants (well prepared!)

COMMENTS OR SUGGESTIONS: (Continued)

Suggest that use of ppt (power point) be utilized more vs
just use of T.P.'s. If not familiar with powerpoint, SME's
will be equipped to help make a suitable powerpoint presentation
- (T.P.'s was used quite a lot in some breakout sessions
resulted in distractions when not correctly aligned)

Seemed like we had covered the 4x6 card comments in individual
Breakout session Report out then we could then again at end -
Suggest wrapping up by only cover this once. May take
NRC STAFF and SME's meeting after the Breakout sessions are complete
and summarize all to ensure this ~~to~~ eliminates redundancy.

COMMENTS OR SUGGESTIONS:

Thank you for answering these questions.

*Good Feedback from Rev 9 P.10t Plants
Breakout sessions were excellent opportunity to openly discuss problem areas with examiners*

Thank you for answering these questions.

Overall very informative and numerous questions answered. The Fundamentals course that Phil put together was very good for us new preparers, this should help with quality product. Interaction was good and information of Reg 9 changes was very helpful.
