SUBJECT CONVERSATION
Paper by Linda Lehman + Ellen Quinn

SUMMARY
Called to say that the paper on geochemical interpretation of groundwater flow in the Columbia Plateau is excellent, "very professionally done" and "worthy of publication."
When questioned, Duguid said (1) that the conclusions of the paper should be taken into account in the BWIP SCR; (2) if there is an institutional concern about publication, the paper should at least be circulated to DCE and placed in the PDR.

REFERRED TO: cc: Lehman, Quinn, Bell, Krupp;	<input type="checkbox"/> ADVISE ME OF ACTION TAKEN.
