Mr. Richard B. Goranson, Project Manager
BWIP Project Office
Richland Operations Office
U. S. Department of Energy
P. O. Box 550
Richland, WA 99352

Dear Mr. Goranson:

In view of the large number of documents which, we understand, are expected to be referenced in the Site Characterization Report for BWIP, considerable advance work will be needed to ensure that the documents are available to NRC at the time of the review of the Report.

On June 24, I mentioned this matter, by telephone, to David Squires and inquired whether we could be provided now with the list of documents referenced in the SCR. It was pointed out to me that some effort would be required to prepare a single, unified list from the lists at the end of each draft chapter. I assured David that our needs would be satisfied by receipt of a copy of the references listed at the end of each chapter, and no time need to be spent in developing a single master list.

May I have your response to our request of June 24. Thank you.

Sincerely yours,

Robert J. Wright, Senior Technical Advisor
High-Level Waste Management
Development Branch
Division of Waste Management

cc: Ralph Stein, DOE-HQ
