Mr. D. Squires
U.S. Department of Energy
Richland Operations Office
P. O. Box 550
Richland, WA 99352

Dear Mr. Squires:

We note that several papers, dealing with geologic aspects of the BWIP, were presented at the Bozeman Mountain Meeting of the Rocky Mountain Section, Geological Society of America, earlier this year. Of particular interest to use are the following:

Caggiano, Joseph. A., "Development of fault parameters ..."

Clifton, P. N., Arnett, R. C., and Baca, R. G., "Numerical Modeling of Groundwater flow ..."

Gephart, R. E. and Price, S. M., "Geohydrologic characterization ..."

Reidel, Stephen P. and Fecht, Karl R., "Uplift and subsidence rates ..."

Strait, S. R., Spane, F. A., Jackson, R. L. and Pidcoe, W. W., "Hydrologic Testing Methodology ..."

Would you please arrange for us to receive a copy of the above mentioned papers as presented to the Geological Society of America.

Thank you.

Sincerely,

"ORIGINAL SIGNED BY"

Robert J. Wright, Senior
Technical Advisor
High-Level Waste Technical
Development Branch
Division of Waste Management
