Subject: Meeting on SRM re: Release of Information

I have arranged for a meeting room, O-16B2, on Thursday, January 31, from 9-10 a.m. to discuss the SRM and proposed next steps. I would like to keep the group relatively small, so please don't invite other attendees unless someone is acting as your designee. At this meeting, I would like to specifically discuss identification of the category of material we are seeking to protect. We may need to have the safeguards folks work with NRR, NMSS and RES in this regard. Mike, I am copying you in the event you would like to send an NMSS safeguards rep.
