Subject: Re: FOIA request

Mindy, I have discussed this matter at length with Mary Pat Siemien and she will be providing the advice on whether there is a legal basis to withhold this information. If she advises there is a legal basis to withhold the information, the decision on whether to release would become a policy decision to be made by the Commission offices.

Don, the last time we spoke about Jenny Weil's FOIA request for the Commission vote sheets, SRM and proposed criteria for withholding SHSI, you mentioned that we may be able to withhold based on its predecisional nature. Have you made a final decision? The date for replying is fast approaching and we need to give SECY an answer on how we will respond.
