Dear Mr. Linehan:

SUBJECT: CHANGE IN ACCESS TO SRP/TECHNICAL DATA BASE

The Battelle Computer Center has implemented a VAXcluster, which ties together and allows for a more even load sharing among the VAXs in the cluster. This should result in better response time for all users.

To utilize the VAXcluster, a new response to the DESTINATION prompt must be used.

OLD DESTINATION PROMPT	NEW DESTINATION PROMPT
VXA	VMS

VMS is now available for use. As of July 15, 1985, the old prompt, VXA will no longer work.

The response to the DESTINATION prompt is the only change to the process to access the SRP/Technical Data Base.

If you have any questions, please contact Sarah Starr of the SRPO staff.

Sincerely,

Theodore J. Taylor  
 Chief  
 Socioeconomic, Environmental,  
 and Institutional Relations
