MEMORANDUM FOR: Hub Miller, Chief  
WMRP  
Jim Kennedy  
WMRP  
FROM: Malcolm Knapp, Chief  
WMGT  
SUBJECT: RESPONSE TO OPEN ITEMS RESULTING FROM NRC/DOE MEETING  
ON THE STRUCTURE AND TECTONICS OF THE PALO DURO BASIN

In the summary of the subject meeting, DOE expressed concern over the QA requirements necessary to validate and verify proprietary procedures utilized for geophysical data acquisition and processing by the exploration industry. NRC agreed to respond to DOE's concern by providing NRC's requirements for validation of proprietary industry procedures while maintaining the proprietary nature of the procedures.

During the week of January 6, 1986, John Trapp of my staff will contact you to arrange a meeting to discuss DOE's concern and determine how it can be resolved.

This closes Item 2 of the Agreements/Open Items in the Summary of NRC/DOE Meeting on the Structure and Tectonics of the Palo Duro Basin. Should you have further questions, please contact Dr. Trapp directly at 74545.
