U.S. Nuclear Regulatory Commission  
Washington, D.C. 20555

Dear Mr. Linehan:

Please arrange for our office to receive multiple copies of NRC reports when they are requested through the Technical Information Center of BPMD. Our staff relies on this information to accomplish their work of administering the repository projects.

Multiple copies are necessary because of the physical separation of our staff and contractor personnel throughout a number of buildings, making a single central library copy impractical. Through conversations with Nancy Still of your office, and Robert Baker of BPMD, it has been determined that we may request multiple copies.

This request is in addition to and does not replace our previous arrangement of receiving six copies of each publication at the time of publication.

Thank you for your cooperation and understanding. If you have any questions, please call Sarah Starr of the SRPO on FTS 976-5916.

Sincerely,

Thomas A. Bartheil
