The contacts between these people are intended to facilitate or clarify work. They are not to be used to assign or request work. Assignment and requests for work must still be documented in formal letters between you and me. The SRPO staff, by copy of this letter, is required to fill out reports of telephone conversations with their NRC counterparts and provide copies to our central files and our NRC coordinator Leslie Casey, to assist our integration efforts. We suggest that Robert Johnson be similarly kept informed by your contact people. We feel that our overall interaction would benefit by maintaining some central coordination between L. Casey and R. Johnson, even after other points of contact are identified.

If this is agreeable to you, please let me know so that we can initiate a formal change to the Project-Specific Agreement.

Sincerely,

J. O. Neff
