MEMORANDUM FOR: Robert E. Browning, Director  
Division of Waste Management

FROM: Tilak R. Verma, Senior On-Site  
Licensing Representative  
Salt Repository Project (SRP)

SUBJECT: SRP SITE REPORT FOR THE WEEK OF MAY 14, 1984

1. Received a copy of the Performance Assessment Plan and Methods for the Salt Repository Project. I gave it to Robert Johnson of the Repository Projects Branch. If additional copies are needed, I will get them.
2. Participated in the hydrological data review meeting with DOE, ONWI and their contractors. SRPO and their contractors were very cooperative in making the requested documents available to NRC technical staff and their contractors. The meeting is a good start on a lengthy process of technical data reviewing. A good portion of the data are with the subcontractors and arrangements should be made for the NRC technical staff to review the field data on sites.

Technical Representatives from the states of Mississippi and Utah were present in the meeting. The State of Louisiana had sent a technical representative for the meeting but he left due to an emergency in his family. There was no technical representation at the meeting from the State of Texas.

The meeting was successful and should be arranged in the other technical areas.
