ATTN OF: RW-24

SUBJECT: Agenda for SCP Meeting with NRC on July 24, 1984

WM DOCKET CONTROL CENTER

JUL 10 AIO:04

TO: T. Baillieu, SRPO
M. Blanchard, NV
J. Mecca, RL

A meeting among NRC and DOE/contractor personnel involved in preparation of the SCP has been tentatively scheduled for July 24, 1984. The purpose of this meeting is to discuss with NRC and DOE expectations on the format, content and level of detail expected in the SCP. The NRC view and the DOE view of the format and content may differ particularly in light of NWSA requirements and NRC's preparation of a revised Reg. Guide 4.17. This meeting presents an excellent opportunity for the projects and DOE to interact directly with NRC on areas applicable to all the SCP's, as well as those site-specific aspects which affect only one SCP. It will be necessary that this be an announced open meeting.

The purpose of this memorandum is to solicit input from each of the field offices for preparation of the meeting agenda. In order to make the most of this meeting, an agenda must be developed in as much detail as possible so that all participants can be prepared to deal constructively with the subject matter. We will have an opportunity to discuss the project input and formalize an agenda for the July 24 meeting with NRC during the next SCP Coordinating Group meeting scheduled for July 17.

We request that the projects prepare lists of topics for discussion with NRC, both generic questions applicable for all the SCP's as well as each project's unique concerns. For example, a generic concern may be 1) are explicit discussions of environmental issues going to be required in the SCP's?, and 2) what level of performance assessments will be required in the SCP vs. the SAR, relative to 10 CFR 60 and NWSA requirements?

The proposed general Agenda for this meeting includes:

- | | |
|-------------------------------------|--------|
| 1. NRC Needs | NRC |
| 2. DOE HQ Plans for General Content | DOE-HQ |
| 3. BWIP Plans for Content | RL |
| 4. NNWSI Plans for Content | NV |
| 5. SRP Plans for Content | SRP |
| 6. Review of Issues | A11 |

We request that the project field offices send to this office lists of such questions for NRC clarification by July 10. Additional questions and detail are encouraged for the Coordinating Group meeting on July 17. At the Coordinating Group meeting, we will finalize an agenda and the lists of questions to be directed to NRC. Please supply your input in as much detail as possible so that we can make the most productive use of this meeting to coordinate concerns among the projects.
