

Date: February 12, 2004

## SUMMARY OF INFORMATION COLLECTION REQUEST

Title: NRC Form 314, "Certificate of Disposition of Materials"

Current Burden/Responses: 200 hours/400 responses

Proposed Burden/Responses: 155 hours/310 responses

Frequency of Response: The licensee submits this form once, when it wants to terminate the license.

Reasons for Changes in Burden/Responses: The overall burden decreased by 45 hours from 200 to 155 hours with a corresponding reduction in the number of responses from 400 to 310. This reduction is based on the actual number of annual requests for terminations received during the clearance cycle.

Level of Concurrence: Chief  
Materials Safety and Inspection Branch  
Division of Industrial and Medical Nuclear Safety  
Office of Nuclear Materials Safety and Safeguards

Recordkeeping Requirements in Accordance with the Retention Periods for Records/Rule: NA

Search of the Information Requirements Control Automated System (IRCAS):  
IRCAS was searched, no duplication was found.

Abstract: NRC Form 314 furnishes information to NRC regarding transfer or other disposition of radioactive material by licensees who wish to terminate their licenses. The information is used by NRC as part of the basis for its determination that the facility has been cleared of radioactive material before the facility is released for unrestricted use.
