Dear Mr. Miller:

SUBJECT: ANL REQUEST FOR NRC DOCUMENTS

This letter request is in reference to the January 23, 1984 letter to you from J.O. Neff of DOE (see Enclosure 1). As noted in that letter, Argonne is performing a peer review function for the Salt Repository Project Office. At present, we are attempting to develop a library of NRC publications pertinent to the CRWM Salt Repository Project so that appropriate information regarding NRC regulations, guidelines, and positions can be made available to our review panel members as needed. In this regard, we are requesting a number of NRC publications that are identified on Enclosure 2. Furthermore, we would appreciate receiving all future high-level waste management documents as they become available as requested in Enclosure 1.

If you have questions concerning this request, please call me (FTS 972-3309) or D.E. Edgar (FTS 972-7596).

Sincerely,

Wyman Harrison
Energy & Environmental Systems Division
