SUBJECT: PROGRESS OF PROPOSED SALT PROJECT WORKSHOPS

At the present time final discussion of details are underway with DOE/NPO (Columbus, Ohio) concerning the scheduling of three workshops. The proposed workshops are: Pre-SCP Consultation, Waste Form/Waste Package and Performance Assessment.

The first of first workshop, "Pre-SCP Consultation" is planned for mid-June. Although the agenda's for the Waste Form/Waste Package and Performance Assessment Workshop are yet to be negotiated, it is planned to hold these meetings in July, 1983.

NPO/DOE has agreed that generic workshops should also be held on topical areas related to Hydrogeology, Geology/Geologic Stability and Geochemistry. It is my position with DOE/NPO that these workshops should take place before DOE's nomination of a site(s).

Hopefully, these arrangements for the first three workshops can be conducted by June 10, 1983.
