**Date:** 10/9/03 11:55AM  
**Subject:** Re: Reactor Decommissioning Funding

Thanks, Stacey!

It happens that NMSS has two exemption requests from decommissioning reactors requesting reduction in their insurance coverage. The meeting will be interesting to us.

Hi Tom,

Yes, I am going to put a meeting together, but it does not have to do with GAO; it really is just to discuss where we are with respect to issuing exemptions to decommissioning reactors on insurance premiums. This was a question that Cmr McGaffigan raised at the decommissioning briefing. I will put you on the list for this meeting, along with other representatives from NMSS and NRR.

Thanks,  
Stacey

Stacey,

Brian Thomas in NRR mentioned that you are trying to put together a meeting on reactor decommissioning funding and the recent draft GAO report on that subject.

Marty Virgilio expressed an interest in keeping informed on the response to GAO and changes to reactor decommissioning funding requirements. I've been asked to represent NMSS on this issue. Now that NMSS has project responsibility for 18 reactors in the decommissioning phase, issues concerning the funding of decommissioning impact the Office.

If you do put a meeting together to discuss the issues, please let me know so that I can attend.

Tom F.
