Administrative Services, Office of Admin.

U.S. Nuclear Regulatory Commission

Washington, D.C. 20555-0001

Regarding proposed new rules allowing operator actions instead of automatic systems to protect electrical cables between control room and reactor at nuclear power plants-- I oppose such an approach as less effective in controlling fires or other damage to critical power cables. I urge Commissioners of the NRC to oppose the proposed new regulations.

Sincerely,

Frank D. Davis
