Subject: Security Briefing with Local Officials on June 20th

I talked to R. Goodrich today about Entergy's briefing with local officials tomorrow. Entergy has invited select local officials. The Westchester County Executive is one of the selected local officials. Entergy will be sending Goodrich and Knuebel. The briefing is expected to be short with the following topics: explanation of miles gear, a number of force-on-force drills this summer (no discussion on dates), provide a video tape on the capability of miles gear, and discuss the purpose of the pilot program on drills. This is not considered a MEDIA briefing. It is to occur tomorrow at the Westchester Airport.

John White was provide this overview with security this week.
