Hubert Miller
 Nuclear Regulatory Commission
 Mail Stop 623SS
 Washington, DC 20555

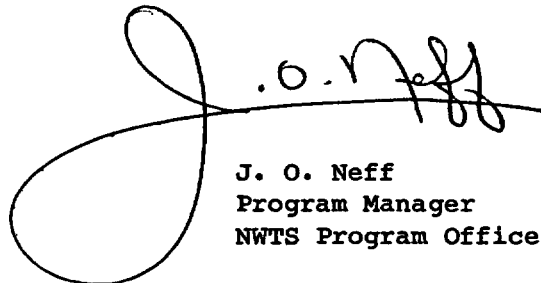

Dear Mr. Miller:

This will confirm conversations between you and members of my staff regarding the agenda for the second bi-monthly meeting of representatives of the salt states and NRC. The meeting will be held in Columbus, Ohio, on Tuesday and Wednesday, September 20-21, 1983.

Attached is the agenda previously discussed with you in initial planning stages. Through copies of my letter to Hassell E. Hunter, senior staff engineer of Production Engineering Services, Conoco, Inc., you know that he will provide the technical presentation about big hole drilling during the opening morning. The discussion topics for the afternoon of the opening day were selected following your requests at our initial meeting in July, 1983. The manner of presentations will be designed to encourage interactive discussions of the subjects. The second day will allow ample time for further group dialogue as well as opportunities for individual sessions with my staff or contractor personnel.

We have again reserved a block of rooms at the Holiday Inn on the Lane and will be contacting you within the next week to determine the names of those planning to attend. I look forward to continuing the positive and open atmosphere established at our opening meeting in July.

Sincerely,

J. O. Neff
 Program Manager
