Dear Sir/Madam:

The purpose of this letter is to inform the Nuclear Regulatory Commission (NRC) that Exelon Generation Company, LLC (EGC) [

] Because of its sensitive nature, EGC submits this information without specifically naming the plants at issue. Rather, it is being submitted voluntarily to allow the NRC to plan more accurately and to budget agency resources accordingly. [

[] In accordance with 10CFR2.790(b), EGC has attached an affidavit providing the basis for withholding the information from public disclosure. Accordingly, pursuant to 10CFR2.790 and 10CFR9.17, EGC requests that this letter and the affidavit be withheld from public disclosure because they contain confidential "commercial or financial" information, the release of which would be harmful to the economic interests of EGC. A redacted version of this letter, suitable for public disclosure, is provided as Attachment 1. If the NRC receives a request for disclosure of this information from any source, whether by an individual or by a government agency, or if the NRC is otherwise unable to honor EGC's application for withholding sensitive information, then we respectfully request that the NRC notify EGC in advance of any possible public disclosure in order to provide us the opportunity to consider withdrawing this letter, pursuant to 10CFR2.790(c).
