Mr. K. Michael Thompson
Basalt Waste Isolation Division
U. S. Department of Energy
Richland Operations Office
P. O. Box 550
Richland, Washington 99352

Dear Mr. Thompson:

In response to your verbal request on April 29, 1986, please find enclosed (1) Sandia National Laboratory's Trip Report for the December 1985 DOE/NRC Hydrology Workshop and (2) Nuclear Waste Consultant's Subtask 2.4 Report entitled "Development of Groundwater Conceptual Flow Models for the BWIP Site." The concepts and opinions expressed in these contractor reports do not necessarily represent those of the U. S. Nuclear Regulatory Commission or its staff. Please contact me if you have any questions or comments about these reports.

Sincerely,

MS/
Michael F. Weber
Geotechnical Branch
Division of Waste Management
