Shirley,

Attached is the note regarding termination of Registration Certificates.

**Thanks,

February 12

~~January 12, 2004~~

John-

I received the attached fax today from General Motors for the cancellation of annual fees for their registration certifications. Upon writing the termination, could it be possible to include the April 17, 2003, certificate of disposition as a part of the reason, along with the February 12, 2004, fax.

Thanks,

Shirley Crutchfield

Subject: Request to Terminate Registration Certificates
To: Shirley Crutchfield
NRC-Fees

Shirley,

It was a pleasure to talk with you once again concerning the annual materials fees for two registration certificates. As you know, on April 17, 2003 I submitted NRC Form 314 as part of the process to terminate NRC radioactive material license, License No. 21-20054-01. Unfortunately, at that time, I did not realize that I should have also asked for termination of the two registration certificates associated with the use of the radioactive materials. The registration certificate numbers are NRO292D101S and NRO315D101S and by this note I am appealing to terminate the certificates retroactive to April 17, 2003, the date that the nuclear material license was terminated.

Please let me know the status of this appeal, or whether you have any questions or need for additional information to resolve this issue.

Thank-you,
Bill Kilgore
