As reflected in the DOE/NRC Site-Specific Procedural Agreement, we wish to emphasize that the communicators' role is to facilitate informational exchange and that they have no authority to present official DOE positions or make policy. In that regard, all formal requests for information, establishment of meetings, workshops and data reviews must be processed through our Licensing/Environmental/Safety Branch.

If you have any questions regarding this information, please contact Mr. J. E. Mecca (FTS 444-5038) or Mr. J. M. Kovacs (FTS 444-1291).

Very truly yours,

O. L. Olson, Director  
Basalt Waste Isolation Division
