February 13, 2004

Josephine M Piccone, Deputy Director
Office of State and Tribal Programs
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001

Dear Ms. Piccone:

Enclosed is a copy of proposed revisions to the Tennessee "State Regulations for Protection Against Radiation" (SRPAR). The proposed revisions will be made available for public comment on April 28, 2004, with a request for comments by May 7, 2004. The proposed regulations are identified by red-line/strike-out text and correspond to the following equivalent amendments to NRC's regulations:

- 1994-3 Timeliness in Decommissioning Material Facilities 59 FR 36026;
-Parts 30, 40, 70
- 2001-1 Requirements for Certain Generally Licensed Industrial 65 FR 79162;
Devices Containing Byproduct Material-Parts 30, 31, 32
- 2002-1 Revision of the Skin Dose Limit-Part 20 67 FR 1629

We believe that adoption of these revisions satisfies the compatibility and health and safety categories established in the Office of State and Tribal Programs (STP) Procedure SA-200 for these amendments.

I have also attached an updated SRS Data Sheet.

If you have any questions, please feel free to contact me at 615-532-0393 or Barbara Davis of my staff at 615-532-0389 or Barbara.A.Davis@state.tn.us.

Sincerely,

Lawrence E. Nanney, Director
