Re: Early Site Permit for new nuclear reactor at Grand Gulf Nuclear
Power
Plant, Port Gibson, Miss.

Dear Sir/Madam,

I strongly object to the proposed expansion of the Gulf Nuclear Power Plant on grounds to numerous to list. But one objection that touches us all, because radiation spreads far and wide, is the fact that none of the nuclear power plants in this country have proper security to protect them against terrorist attacks. They are on ground bombs waiting to be lit. The facility in Port Gibson is highly unprotected as there is just one fire department and infrastructure is greatly underfunded.

Sincerely,

Patricia Neveleff
